

"SILVER KING" WRENCHES

Imagine a ratchet that always works properly. Packed complete, weight about seven pounds. In strong oak boxes or durable canvas rolls, the cost is the same.

No similar wrench at anywhere near the price is anywhere near as good. No wrench at any price is so certain to give satisfaction under most trying conditions.

As the set of tools appears on canvas ready to fold up.

"SILVER KING" has the greatest number of simple adjustments for difficult working places. No wrench has an equal amount of leverage, or so long and firm a handle. It is easy for a woman to work with "SILVER KING."

This adjustable "SILVER KING" does the work of all the different kinds of ratchet and socket wrenches made. The "SILVER KING" will fasten a nut TIGHT.

(No. 1 Size)

Most adjustable ratchet and socket wrench equipped with fifteen sockets to fit all kinds and sizes of nuts. Screw driver and spark plug wrench. Ratchet Drill attachment furnished in place of spark plug wrench if wanted.

"SILVER KING" WRENCHES

are made of SILVER METAL that will not rust in any climate or under any conditions. It is stronger than pressed steel and a nut can be so firmly fastened with a "SILVER KING" wrench that it is impossible to start it without breaking pressed steel sockets.

The Adjustable Handle offers the greatest convenience and leverage, and is easy and simple to operate. Where it is possible to insert a bolt, no obstacle can prevent working it with a "SILVER KING." The handle swings in any position. "SILVER KING" will tighten and loosen nuts and screws in the most out-of-the-way places.

C. M. B. RATCHET DRILL ATTACHMENT is the most practical device of the kind on the market.
